Dear [Name],

We know you’re busy, but we wanted to reach out to let you know that [name], is still unable to access your article "[article title]". We’d love to help increase your article’s impact and readership by making it accessible to everyone.

Many researchers are unsure if they can legally share a copy of their articles. We have good news! All major publishers permit either archiving the submitted or accepted version to a repository. You can check your journal policies in SHERPA/RoMEO.

You can make your article publicly available by providing a URL here to a copy in a repository [URL]. You can also reply with an attached copy of the article and we’ll upload it to Zenodo on your behalf.

Let us know if you have any questions!

Kind Regards,

Natalia
