[Questions?](#)

[Registration](#) for the 2023 Southern Miss Institutional Repository Conference (SMIRC) is still open.

SMIRC is an opportunity for Institutional Repository (IR) managers to come together and learn about new ideas and strategies that their colleagues are using at their institution to meet the needs of their faculty, staff, and students. It is also a chance for institutions that do not currently have an IR to discover the benefits that an IR can offer in terms of promoting the scholarship and research of their university.

SMIRC consists of speakers, panel discussions, and workshops that will address topics

ranging from the basics of IRs to new ideas for longtime IR managers. The presentations will also include speakers who use a variety of different IR platforms, thus allowing attendees to compare the different options that are available to them.
