International Conference of Educational Innovation through Technology (EITT)

The Society of International Chinese in Educational Technology (SICET) has been organizing the International Conference of Educational Innovation through Technology (EITT) since 2012. EITT is an annual international conference aimed to provide a forum for researchers in technology and education areas to exchange research findings, insights, and experiences on educational technology related topics. Starting from 2014, all EITT conference proceedings are indexed by EI Compendex (IEEE Xplore, IEEE Computer Society Digital Library). Below is a brief history of the EITT.
